CABLES

FOR CONSTRUCTION MACHINERY

About Us

SAB North America is a focused supplier for the automation, aerospace, construction, medical, high temperature, and robotics industries, providing cable solutions that meet, exceed, and set new standards in the flexible cable market. In addition to flexible cable products, we offer an extensive inventory of high-quality cable accessories, including cord grips, grounding glands and other accessories that complement our flexible control and automation cables.

Whatever the need may be, look to SAB North America for Special Cables that can, for example, help minimize maintenance costs and increase productivity, reduce downtime, and solve specific problems. Here is a small sample of some of the challenges that Special Cables from SAB North America can help address:

- Hybrid designs for multiple functions
- Harsh environments
- Difficult applications
- Industry-specific requirements

Our wide cable range is used in numerous construction machines for example: truck-mounted concrete pumps, tower cranes, construction hoists, cable and hydraulic excavators, bulldozers and many more.

Whether you're a valued distribution partner, a manufacturer, an automation house, an integrator, or a contractor, rest assured that our cables are reliable to maximize production efficiencies. SAB brings world class performance & 75 years of ingenuity to the table.

SAB's level of speed and service as a supplier is unmatched. SAB lives up to its name in not only flexible cable but also flexible manufacturing.

SAB Advantage...We make it Easy

- Engineering & technical assistance
- Cut to length with no cut charges
- Prepaid freight within US for orders over \$2,500
- Specialty cable designs (1500 ft minimum)

- No minimum on orders from stock
- Free drop shipments (no surcharges)
- 24-hour shipments from stock
- Cord Grips for securing and grounding cables

Development and production

SAB – your cable specialist for construction machinery

The requirements for construction machinery like road finishers, tunnel or mine vehicles, earth movers or cranes with automatic functioning, data networking, and electronic drive systems are growing. SAB is a competent partner for development and production of cables that make construction machines safer and more efficient. We have many existing products for data and power transmission that may fit your requirements or we can design a tailor made hybrid cable solution to fit the special application.

You can trust our 75 years of experience in cable construction to create the best connection for you.

Production possibilities

Flexible cables and wires "Made in Germany"

As a leading manufacturer we develop and produce cables for industrial purposes. Our wide range of materials offer a lot of possibilities for your individual product requirement. The following survey shows an extract of our production possibilities:

Product Overview

Cable Track Cables

Reeling Cables

Applications

The S 200 series can be used in demanding environments and permanently flexible applications for use in:

- crane technology
- articulation points
- telescopic boom
- aerial work platforms

Outstanding features

- oil resistant, cross-waterproof

- unprotected outdoor installation

Application in spring and motor drums for use in:

- construction lifts
- crane booms
- mobile cranes
- material handlers

- extremely high winding and unwinding strength

- ✓ suitable for offshore applications

Bus and Ethernet Cables

CAN Bus, Profibus and Ethernet cables for machine communication for use in:

- advanced driver-assistance systems
- autonomous driving
- monitoring systems

ETFE, FEP, PFA Strands

Wiring strands for high temperature requirements and chemical resistances for use in:

- road paver
- cold milling machines
- earthmoving machines

- very good temperature resistance
- ✓ flexibility at low temperatures
- very good resistance against solvents
- very good resistance against chemicals

Product Overview

Exploration Cables

Applications

Control cables for unprotected application with high mechanical stress for use in:

- drilling rigs
- pump systems
- compressors

Outstanding features

- ☑ HUV- resistance
- ozone resistance
- ✓ saltwater resistance
- ✓ large temperature range

High Voltage Cables

Besilen® (silicone) insulated connection cables for use in:

- E-Mobility HV test benches
- all-electric construction machinery
- ✓ weather resistant
- ✓ flexible at low temperatures
- If I flame retardant and selfextinguishing
- very easy laying

Special and Hybrid Cables

Cables according to the special requirements of our customers.

 can be realized for all construction machines

- suitable construction for different applications according to your requirements
- many options including a combination of data and control elements
- marking according to customer specification
- conductor and jacket colors according to customer request
