

# Halogen-free Cables

## Applications

### ■ Application of halogen-free SABIX® data cables

Data cables are used for the transmission of signals, measuring values and control signals in electronic control appliances, data processing systems, railway technologies, weighing installations, office appliances or wherever small cross sections, bending radii, shielding or high flexibility is demanded. The excellent characteristics of these cables, in various versions are oil resistance, low temperature flexibility, heat resistance, weather resistance, flexibility and being halogen-free.

#### Exemplary applications:

<b>SABIX® D 305 FRNC</b>	Communication technologies
<b>SABIX® D 315 FRNC</b>	Electronic data processing systems, weighing installations, office appliances
<b>SABIX® D 345 FRNC TP</b>	Electronic data processing systems, weighing installations, office appliances, for increased requirements on transmission characteristics and near-end cross talk attenuation

### ■ Application of halogen-free SABIX® Rail Data and Rail Control tested acc. to EN 45545-2

In sensitive areas, such as in public buildings and facilities and rail vehicles, the requirements for the protection of the general security are very high. In addition, halogen-free cables must be flame-retardant and self extinguishing and must not contribute to fire propagation. All of these characteristics, can be found in our brand name of SABIX®. Our SABIX® Rail Cables meet the highest safety standards according to EN 45545-2, and are certified by the Fire Technology Laboratory Currenta GmbH.

#### Exemplary applications:

**SABIX® R 600 FRNC**  
**SABIX® R 638 FRNC**  
**SABIX® R 605 FRNC**  
**SABIX® R 615 FRNC**  
**SABIX® R 645 FRNC TP**  
**SABIX® R flex**  
**SAB RailLine 560**  
**SABIX® A 280 FRNC X**  
**SABIX® A 285 FRNC X**  
**SABIX® A 280 FRNC X (FR)**

Cables for internal wiring of rail vehicles acc. to EN 45545-2

**SABIX®** cables can be fully recycled and in separate components newly supplied to the resource cycle. Cables with FRNC outer sheath avoid flame propagation in case of local flaming and are flame retardant and self-extinguishing acc. to VDE, EN and IEC. They fulfil the smoke

# Halogen-free Cables

## Applications

### ■ Application of halogen-free SABIX® BL data, control and power cables for shipbuilding

The development of the new BL cable series has been achieved with co-operation from our customers coming from the shipbuilding field. The new cables are available as halogen-free SABIX® BL cables. All SABIX® BL types are constructed with tinned copper strands in class 5 in order to offer advantages in corrosion resistance and flexibility. Their SABIX® characteristics fulfill the highest safety-related aspects in shipbuilding with regards to both fire performance as well as being halogen-free. Data cables, type SABIX® BL Data, are available with small cross sections beginning with 26 AWG. This results in a small outer diameter which offers an outstanding advantage particularly where there is only a little space. The types SABIX® BL Control as well as SABIX® BL Power complement the new product series with control and power supply cables for electrical components.

#### Exemplary applications:

<b>SABIX® BL 405 FRNC</b> <b>SABIX® BL 415 FRNC</b> <b>SABIX® BL 443 C FRNC TT</b> <b>SABIX® BL 445 C FRNC TP</b> <b>SABIX® BL 446 C FRNC FTP</b>	Installation and wiring of navigation and bridge electronics as BNWAS, power supply of electrical components  Data cables
<b>SABIX® BL 400 FRNC</b> <b>SABIX® BL 438 C FRNC</b>	Control cables
<b>SABIX® BL 402 FRNC</b> <b>SABIX® BL 408 FRNC</b> <b>SABIX® BL 409 C FRNC</b> <b>SABIX® BL 410 FRNC</b> <b>SABIX® BL 412 C FRNC</b>	Power cables

### ■ Application of halogen-free SABIX® Ultra - continuous flex with highest fire protection

Fire protection, halogen-free, flexibility and oil resistance are the characteristics united by our new product range SABIX® Ultra. Due to the new jacket material, the cable can be used for flexible applications and shows the highest fire protection features by the standards EN 60332-1-2, EN 60332-3 Cat C or D, IEC 60754-1, IEC 60754-2, EN 61034, NF C 32-070 C1, NF X 70-100.

#### Exemplary applications:

<b>SABIX® SD 705 FRNC C1</b> <b>SABIX® SD 715 FRNC C1</b> <b>SABIX® SD 745 FRNC C1 TP</b>	as festoon cable for polar cranes in nuclear power plants, in rail technology as sensor cable at the vehicle chassis, cable track applications with moderate mechanical stress
<b>SABIX® S 710 FRNC C1</b> <b>SABIX® S 712 C FRNC C1</b>	as festoon cable for polar cranes in nuclear power plants, in rail technology as sensor cable at the vehicle chassis or as flexible control cable at the train doors, cable chain applications with moderate mechanical stress
